From the city of Chapel Hill to the communities in Ethiopia and Honduras, the Buckley Public Service Scholars program has greatly enhanced my college experience by encouraging me to serve and impact my school, the greater campus and the communities of the world.

- David Artin

Meeting so many people who wish to effect change in the world has given me optimism for the future and inspired me to continually give more of myself.

- Mary Aaroe

The experiences we gain from performing public service are more than bullet points on our resumes. They are the illustrations of our trail of heel prints we have left behind in our communities, in the lives of those we have touched and more importantly they are heel prints that are tucked away in our hearts forever.

- Taylor Howard

At Carolina, the Tar Heel spirit is unmistakable. From the classroom to the far corners of the world, our students, faculty and staff are doing innovative work in local, national and international venues.

Our University is indeed the best place to teach, learn and discover. Through the challenges of the past several years, Carolina has remained fully engaged with and responsive to the world around us. It is fitting that the efforts of this class of Buckley Public Service Scholars upholds the tradition of our public university, through applying their knowledge, skills and passion to address specific problems and improve peoples’ lives.

Each participant and every project continues our long tradition of service to the state of North Carolina and far beyond.

Thank you for helping us celebrate these outstanding students and their accomplishments. They are another example of the programs that make Carolina exceptional in both academics and public service.

Holden Thorp
Chancellor, The University of North Carolina at Chapel Hill

Our University is indeed the best place to teach, learn and discover. Through the challenges of the past several years, Carolina has remained fully engaged with and responsive to the world around us. It is fitting that the efforts of this class of Buckley Public Service Scholars upholds the tradition of our public university, through applying their knowledge, skills and passion to address specific problems and improve peoples’ lives.

Each participant and every project continues our long tradition of service to the state of North Carolina and far beyond.

Thank you for helping us celebrate these outstanding students and their accomplishments. They are another example of the programs that make Carolina exceptional in both academics and public service.

Holden Thorp
Chancellor, The University of North Carolina at Chapel Hill
Congratulations to this year’s Buckley Public Service Scholars for their outstanding work in public service.

The opportunities UNC offers students to make a difference in the community are limitless. From building houses to organizing blood drives, UNC provides the tools needed to begin making a difference in the world. Thanks to the Buckley Public Service Scholars program, we were encouraged to pursue various volunteering paths, not only to realize how a single individual can benefit an entire community, but to discover how passion to serve can transform our outlook on life.

• Campus Y – Advocates for Grassroots Development in Uganda (AGRADU)
• Carolina Navigators
• Chapel Hill-Carboro City Schools
Public Service has defined my experience at UNC, and the Carolina Center for Public Service has been an incredible support throughout all of my endeavors at Carolina! Through service, I have learned so much about myself and what it means to become engaged and serve alongside members of a community. The BPSS program has allowed me to apply what I’ve learned in the classroom in meaningful ways and equipped me with the skills to be a global citizen and address community needs in sustainable, meaningful and lasting ways.

~ Morgan Abbott

The Buckley Public Service Scholars program helped me further my passion for helping others, attracted me to a wide range of volunteer opportunities, and set me on the career path to becoming a teacher.

~ Alexander Wonnell
