

CLASS OF

2023

**BUCKLEY PUBLIC
SERVICE** *Scholars*

CAROLINA CENTER
FOR PUBLIC SERVICE

CONGRATULATIONS

CLASS OF 2023!

Dear Class of 2023 Buckley Public Service Scholars,

As the nation's first public university, public service has been an essential part of Carolina's identity. We serve the people of North Carolina, the nation and the world by preparing the next generation of leaders and solving the grand challenges of our time. Over the years, our students have proven their commitment to service and generosity of spirit time and again.

As our Buckley Public Service Scholars, you are continuing this great tradition of service. Congratulations on your achievement and thank you for giving your effort and time to others. Throughout your tenure, you faced challenges and overcame them. You have accomplished so much during your time at Carolina, and you have contributed so much to our campus and beyond.

I have no doubt that your resilience, your curiosity and your commitment to public service will guide you as you take the next step in your journey. I look forward to seeing what you accomplish in the years ahead.

Go Heels!

A handwritten signature in black ink that reads "Kevin M. Guskiewicz". The script is fluid and cursive.

Kevin M. Guskiewicz
Chancellor, The University of North Carolina at Chapel Hill

Congratulations Buckley Public Service Scholars Class of 2023!

As you graduate, you stand out for an accomplishment that demonstrates your passion and commitment to public service and community engagement. *And you did it all despite a worldwide pandemic!* You are joining more than 3,200 Tar Heel alumni who are fellow Buckley Public Service Scholars.

Your class has amassed 73,870 hours of service at over 174 sites throughout North Carolina, the nation and the world. As you embark on the next phase of your life journey, I encourage you to reflect about what skills you have learned through the BPSS program and which experiences will continue to inform you. Where and how will you continue to make a difference?

I hope as you continue your journey, you will do so with gratitude for all those who have helped nurture your enthusiasm for service – faculty, family members, peers, community members and many others. I urge you to pass it forward to others, inspiring them through your example!

Hark the sound,

A handwritten signature in black ink that reads "Lynn W. Blanchard". The script is fluid and cursive.

Lynn White Blanchard
Director, Carolina Center for Public Service

ABOUT THE PROGRAM

Since 2003, the Carolina Center for Public Service (CCPS) has offered the Buckley Public Service Scholars program (BPSS) to provide a framework for Carolina undergraduate students committed to making a positive impact through service.

PROGRAM OVERVIEW

Connecting students with similar interests, the BPSS program challenges participants to expand their understanding of service. By providing special opportunities for leadership development and community engagement, BPSS enables students to connect academic and community-based experiences and build their capacity to help effect change.

While completing the program components, participants build portfolios that reflect their learning and service experiences throughout North Carolina, the nation and the world. This year, participating students reported service with more than 300 community and campus organizations.

WALTER WHITE BUCKLEY JR. ENDOWMENT

In 2011, the Center announced the establishment of the Walter White Buckley Jr. Endowment. This endowment honors Walter Buckley, who leverages his business entrepreneurial experiences to make a difference in the lives of others. Buckley exemplifies the qualities that BPSS seeks to instill in Carolina students. The Center is grateful that the Walter White Buckley Jr. Endowment ensures Buckley Public Service Scholars will graduate for generations to come.

PROGRAM COMPONENTS

The BPSS program model incorporates a student's demonstrated commitment to public service with structured skills trainings and thoughtful reflection on that service. The program introduces students to social entrepreneurship, community-based research, advocacy and philanthropy as important forms of public service.

To successfully complete the program, students build a portfolio that includes the following:

- A BPSS orientation session
- A minimum of 300 hours of public service
- One service-learning course
- Four approved skills trainings
- A senior reflection activity
- A minimum cumulative GPA of 3.0

BPSS is open to all full-time undergraduate students with at least four semesters remaining at Carolina. Transfer students must have at least three semesters remaining to enroll.

SPECIAL OPPORTUNITIES FOR BPSS PARTICIPANTS

ARTS IN PUBLIC SERVICE FELLOWS

In 2015, CCPS and Carolina Performing Arts partnered to create the Arts in Public Service Fellowship. This program encourages students to make a direct impact in their communities through the arts. In fulfilling BPSS program requirements, Arts in Public Service Fellows build portfolios with a focus on the arts as instruments of social change. This year, **Ethan Sichel** graduated as an Arts in Public Service Fellow.

NORTH CAROLINA OUTWARD BOUND SCHOOL SCHOLARSHIP

Each year, CCPS typically awards North Carolina Outward Bound (NCOBS) scholarships to students who are participants in the Buckley Public Service Scholars program, affiliated with the School of Education at UNC or involved with leadership development programs through Student Life and Leadership. They spend time in a variety of wilderness areas and develop practical outdoor skills, while learning about the inherent connections between humanity and the environment. In 2022-2023, the Center offered nine scholarships for 28-day courses, as well as another 20 scholarships for four-day August and fall break courses to Community Service Scholars and student leaders.

PHILANTHROPY AS A TOOL FOR SOCIAL CHANGE

Philanthropy as a Tool for Social Change is a three-credit-hour service-learning course offered through CCPS and the Learning by Giving Program. Through this course, students learn about the field of philanthropy and participate in the process of awarding grants to area non-profits. The group of students function as a foundation board that is responsible for researching North Carolina needs, designing grant award criteria, drafting and distributing a request for proposals, reviewing submissions and awarding grants to select community organizations. Since 2010, students in the class awarded at least 37 grants, totaling more than \$123,000.

SMART MENTORING

SMART engages Carolina undergraduates and local middle school students in mentoring relationships. This program focuses on topics of race, class and gender in local communities. Staff from partner organization, Volunteers for Youth, match SMART mentors with mentees during fall semester and the mentoring commitment continues through late April.

SCHOLARSHIPS AND FELLOWSHIPS

COMMUNITY SERVICE SCHOLARSHIPS

In 2015, Scott MacDonald '72 M.R.P. endowed the MacDonald Community Service Scholarships, establishing the model for the Community Service Scholars Program. Community Service Scholarships are offered to a select group of service-oriented Carolina students.

Scholarship recipients:

- Receive an annual scholarship
- Participate in the BPSS program to receive training, mentorship, leadership opportunities and structure to build knowledge and skills related to their service interests
- Complete a four-day leadership development course through the North Carolina Outward Bound School with other Community Service Scholars
- Engage in and document an average of at least 250 hours of service annually during their time at Carolina
- Complete an annual reflection and self-assessment regarding their progress
- Design and implement a capstone project prior to graduation

Ana Hoppert, Suzy Brito Lagunas, Cameron Milne and **Isabella Pettit** are graduating as the 2023 class of Community Service Scholars.

Thanks to the generous support of additional donors at all levels since the program began, 36 students have been awarded Community Service Scholarships, with more to come.

MACDONALD COMMUNITY SERVICE FELLOWSHIPS

The MacDonald Community Fellowship provides selected students with funding, mentorship and support to create and implement a signature service project during their junior and/or senior year. This opportunity is available to Community Service Scholars and other students who can demonstrate a meaningful and sustained relationship with a community partner. To date, CCPS has awarded 29 MacDonald Fellowships.

Six graduates received MacDonald Fellowships this year:

Suzy Brito Lagunas received a fellowship for the project "Garden Growing @BG," which she completed in partnership with the Boys & Girls Club of Central Carolina.

Cameron Milne received a fellowship for the project "Art Across the Ages," which she completed in partnership with the Marian Cheek Jackson Center.

Kirti Patel received a fellowship for the project "First on Scene," which he completed in partnership with UNC Campus EMS.

Isabella Pettit received a fellowship for the project "From the HeART," which she completed working with several partners, including the Jamil Niner Food Pantry.

Matthew Tracy received a fellowship for the project "Youth Service-Learning Program," which he completed in partnership with Cooking Up Character.

Jessica Uba received a fellowship for the project "Memorial Fund," which she completed in partnership with the Community Empowerment Fund.

“ I have immersed myself in various positions that have allowed me to strengthen my advocacy skills while developing my assessment, implementation, collaboration and decision-making skills. The Buckley Public Service Scholars gave me the strength and confidence to pursue this vision.”

-Jessica Uba

BUCKLEY PUBLIC SERVICE

2023

154 STUDENTS

73,870
HOURS OF SERVICE

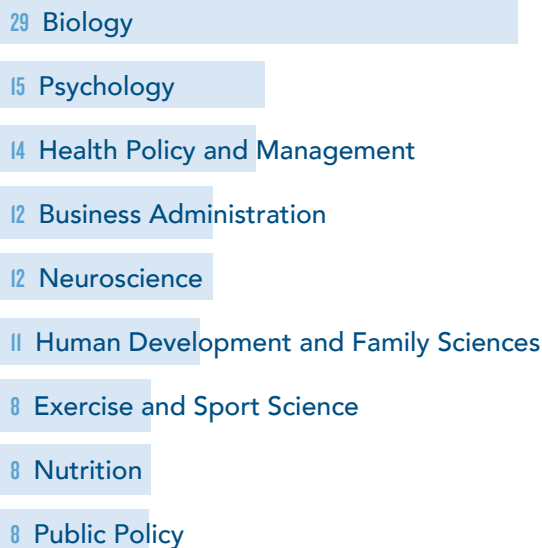

39
MAJORS REPRESENTED
ON CAMPUS

The **154** students graduating in the 2023 BPSS class reported **73,870** hours of service as of March 2023.

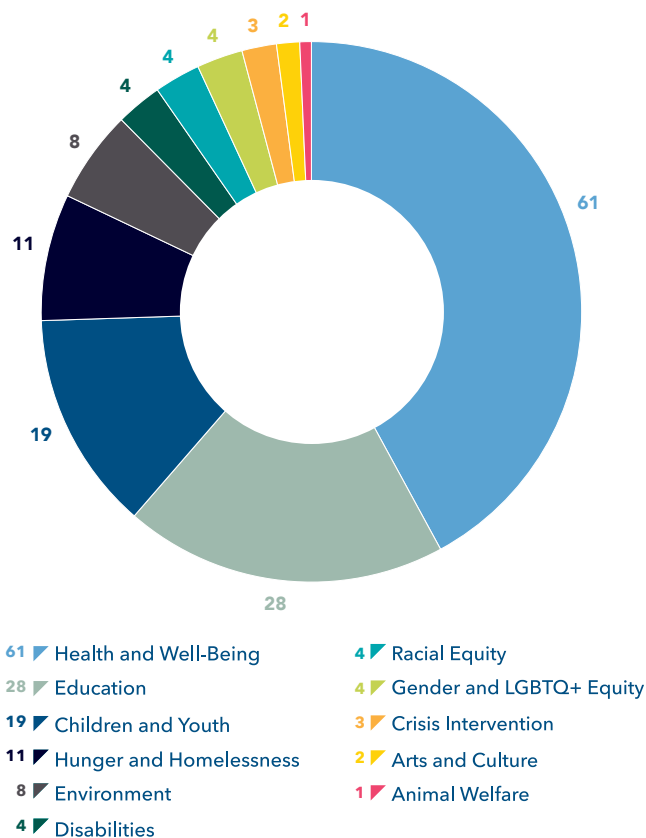

Of these service activities, **65%** primarily benefited North Carolina, **32%** benefited other states and **6%** benefited other countries.

BPSS participants represent **39 of more than 70** majors on campus. Participants focus on a large variety of service areas, from health to the environment. Students participated in many types of service, including direct; policy and advocacy; and organizational and administrative.

PHOTO CREDIT • TYLAH HARRISON

“ I especially enjoyed the Apples-Service Learning opportunities to work with the local Latinx population and utilize my Spanish language skills by way of my Hispanic Linguistics major.”

-Rabea Pfaff

“ The program helped drive me towards EMS, which has changed my world view and fostered my love for serving the community through healthcare.”

-Abigail Smith

“ [While] in this program, I especially have been able to work with South Orange Rescue Squad and serve the greater Orange County community by responding to 911 calls and providing emergency care. I have not only gained clinical experience from this, but a greater understanding of the underserved individuals in the community I live in.”

-Kayla Delpino

“BPSS showed me how to incorporate elements of service into my daily life, therefore making my college experience more rewarding and valuable.”

-Brianna Corrie

PHOTO CREDIT • ETHAN JARRETT

PHOTO CREDIT • MADISON WILLIAMS

“Whether I was volunteering at the Compass Center at the height of the pandemic or running a grant process in the class ‘Philanthropy as a Tool for Social Change,’ I learned a lot about how to center empathy and equity in service, and how community organizations are addressing the needs of their people.”

-Rayna Young

“The Buckley Public Service Scholars program was a crucial vessel in the relationship I would form with Habitat for Humanity Orange County. It allowed me to continue the work attached to the organization’s mission statement coming into college and in another county’s office. Through this experience, I learned aspects of community building and resident-led initiatives, topics that are difficult to teach in an academic setting. Overall, the program was a wonderful complement to real-world education.”

-Samara Kuhl-Chimera

PHOTO CREDIT • RAYNA YOUNG

“ [BPSS] has taught me the value of being immersed in your community. I have walked away with a love for the people of Chapel Hill that truly stemmed from the opportunity to serve with them and towards them.”

—Linda Harris

PHOTO CREDIT • BRIANNA CORRIE

PHOTO CREDIT • JISABEL COSBY

“ BPSS provided me with formative, perspective-altering experiences and meaningful relationships. I have worked in the areas of farmworker justice, educational equity, immigration and government. The lessons from these experiences are the foundation which will drive and shape my future work, and I will carry them for a lifetime.”

—Rachel Scrudato

“ Through the Buckley Public Service Scholars Program, I was able to narrow my passion in two different ways. First, I was able to explore my interest in aging populations and older adult health, as well as directly and indirectly interact with the local older adult population in Orange County, North Carolina. Second, I found my strengths and passion in management and program execution, especially those with high impact to the populations we serve. BPSS allowed a platform in which I can grow my interests.”

—Anna Wakita
