Choosing a Community Partner

Student name:

When you are choosing your top three choices, please consider the following:

- What hours do you have free? Which weekdays give you a consistent period of time that you can devote to your placement?
- What special skills do you have? Do you speak Spanish? Are you a good writer? Do you have a talent for working with kids? Do you have strong computer or research skills?

Choose top three preferences

Consider which of the placements work best for you. In the space below, write the three placements that you are most interested in. For each, please explain your interest in that placement as well as skills you have (or want to develop) that apply to the specified project.

Choice #1:

Why are you interested in this placement?

What do you hope to get out of this placement?

Do you have special skills that you can offer this community partner?

Choice #2:

Why are you interested in this placement?

What do you hope to get out of this placement?

Do you have special skills that you can offer this community partner?

Choice #3:

Why are you interested in this placement?

What do you hope to get out of this placement?

Do you have special skills that you can offer this community partner?
