We are doing inter-professional health fairs in Robeson County (March 14th) and Columbus County (March 16th). We will have the UNC Medical mobile van, are partnering with the local public health departments, community health care providers, NC breast and cervical cancer control program and hopefully migrant health.

We are asking for donation of supplies to take:

- **TOWELS** (bath, hand, & face)
- **TOILETRY SUPPLIES** (deodorant, shampoo, conditioner)
- **TOOTHPATE & TOOTHBRUSHES**
- **CLEANING SUPPLIES** (brooms, mops, buckets, paper towels)
- **LAUNDRY DETERGENT**

We are also asking for donations of safe alternatives for cleaning.

The basic ingredients for natural cleaning products might already be in your pantry:

- **DISTILLED WHITE VINEGAR**
  - Good for dissolving grease, dirt, soap, scum and mineral deposits. Also absorbs odors.
- **BAKING SODA**
  - An effective replacement for harsh scouring powders. Mildly abrasive and naturally deodorizing.
- **BORAX**
  - Good for cleaning, disinfecting and deodorizing
- **LEMON JUICE**
  - Cuts grease, freshens and deodorizes, fights household bacteria
- **CASTILE SOAP**
  - All-purpose cleaner for around the house
- **HYDROGEN PEROXIDE**
  - (3%) a natural anti-bacterial, whitener and mold cleaner

Boxes are available in key locations at the School of Nursing.
